

RE300 Handheld ORP Meter

- Wide range with high resolution
- Flat Surface Electrode
- Waterproof ORP meter
- Automatic electronic self calibration
- Saves up to 15 readings
- Analog bar graph

Description

The RE300 Handheld ORP Meter features a unique flat surface electrode that provides fast and easy on the spot ORP measurements of liquids, semi-solids, and solids. The design is rugged and designed for harsh environments so you no longer have to worry about electrode breakage or clogged junctions. The handheld ORP meter has a data validation indicator that shows you when the reading has stabilized. The handheld ORP meter also features an automatic electronic self-calibration attribute.

The RE300 Handheld ORP Meter is IP67 rated for wet environments. The ORP meter can save up to 15 readings and the last calibrated value in its memory. The handheld ORP meter has an analog bar graph, which displays changes in the ORP reading. The handheld ORP meter also has data hold, auto shut-off, and low battery features.

Specifications

Range: -999 to 999mV
 Max. Resolution: 1mV
 Accuracy: ±4mV
 Power: four SR44W button batteries
 Size: 1.4x6.8x1.6" (35.6x172.7x40.6mm)
 Weight: 3.8oz (110g)

Options and Accessories

RE300 Handheld ORP Meter
 Includes ORP electrode, sample cup with cap, batteries, and 48" neckstrap.

RE305 Spare ORP Meter Probe

EX006 Weighted base with 5 solution cups

CA895 Carrying Case, Small with Belt Loop
