DESCRIPTION

The 65092-TWA is a high capacity steel or stainless steel weighing assembly.

This product has a unique design for silo and hopper weighing. It has high side load rejection, and is able to withstand loads in all directions up to and exceeding its rated capacity with no permanent damage. It is also designed to move in the direction of thermal expansion, guaranteeing accurate measurements regardless of conditions.

Nickel plating or stainless steel and IP67 rated sealing make this load cell suitable for use in outdoor applications as well as applications that are subject to high pressure wash down.

This load cell is rated intrinsically safe by the Factory Mutual (FM), making it suitable for use in potentially explosive environments.

APPLICATIONS

- Tank, bin, and silo weighing
- Level and inventory monitoring
- High capacity weighing
